such an action would be in line with "Moscow's policy of reconstituting a strong Communist centralized Germany" and that "such a Germany would be infinitely more important to the Soviets than France or Poland."

5. US Embassy Ankara comments on Turkish reply to USSR--US Ambassador characterizes the Turkish reply to the Soviet Straits proposal as "both reasonable and firm." He observes that the reply does not express unwillingness to attend a conference which would discuss the objectionable Soviet proposals but states firmly Turkey's refusal to yield any "inalienable sovereign rights."

EUROPE-AFRICA

6. YUGOSLAVIA: Reported action against Army officers and emigres--
US Military Attache Belgrade has been informed [redacted] 25X6

11. **AUSTRIA:** Soviet authorities ease gas shortage--General Clark reports that Soviet authorities, apparently as a result of US pressure, have now released 3500 tons of gasoline on the August allocation. Since the quantity allotted the US Zone Austria still fails to meet critical needs of the next 30 days, Clark is releasing an additional 500 tons from US military stocks.

FAR EAST

12. **INDIA:** Disagreement between Nehru and Viceroy--The India Office has informed US Embassy London that the Viceroy apparently objects to Nehru's Cabinet slate because it includes five Congress Moslems whom the Viceroy characterizes as nonentities. The India Office believes that a government will be formed within the next week but that a struggle will then develop, since Nehru, "feeling his oats," will probably try to exceed the powers for the Interim Government, particularly in foreign affairs.

THE AMERICAS
